

Cradle Accessories . . .

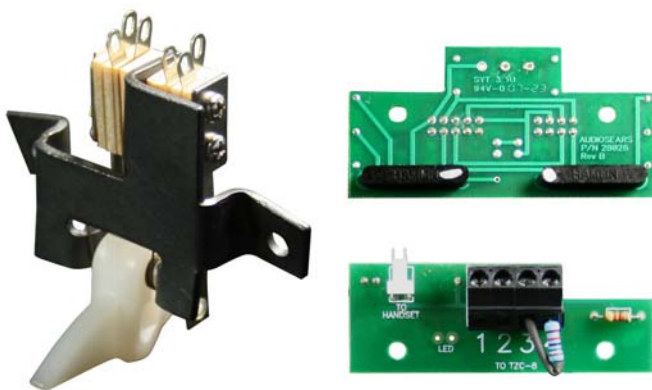

Rugged cradles accommodate "G" type handsets. They may be purchased as separate component parts, factory assembled units, or pre-wired handset and cradle components.

Cradle, less slot for use with magnetic reed switch

Cradle with slot for use with mechanical leaf switch

Switches - mechanical leaf or magnetic reed switch

Retaining Clip - Locks the handset in place

Terminal Board - screw type terminals.
Facilitates "in-field" wiring hook-up.

Mounting Plate - Facilitates wall mounting applications
